DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6 and 10-20, drawn to a composition ^{and method} which regulates the inflammatory response of enterocytes and a method for producing a composition which regulates the inflammatory response of enterocytes.

Group II, claim(s) 7-9, drawn to a process for screening novel lactic acid bacterial strain which modulate non-specific immunity.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Inventions I and II are related as process for screening and composition. The process comprises steps such as selecting bacteria strains capable of performing specific functions, whereas the composition and method of making the composition do not require the specific use of said bacterial components. The composition can be used with different types of method steps such as a method for regulating inflammatory response of enterocytes. The composition and method have a different special technical feature when compared to the process claims. Accordingly, the groups lack the same technical feature.

Art Unit: 1645

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ja-Na Hines whose telephone number is 703-305-0487. The examiner can normally be reached on Monday-Thursday and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lynette Smith can be reached on 703-308-3909.
